

Overview

High-availability Web-hosting services with 24/7/365 monitoring

Electronic commerce demands sophisticated resources and consumer services that are available any time, anywhere. EDS' world-class Managed Web Hosting Services delivers the secure, high-performance hosting environment you need and integrates it fully with your new or existing systems.

Benefits and advantages

Go global and stay secure

EDS' worldwide WebVault® facilities provide the industry's highest levels of security and reliability. We ensure the protection of client data and equipment by providing multiple layers of physical protection. Electronic measures include router and firewall management, server auditing and scanning, and intrusion detection.

EDS also monitors operations, traffic, performance, and data flow 24/7/365. We employ redundant equipment, including power grid connections and diesel backups to assure uptime. Daily backups further ensure disaster recovery. And two high-speed connections to the Internet through different backbone providers virtually guarantee contact access.

How to get started

- 1) Execute a SERFF License Agreement with the NAIC (also available through EDS).
- 2) Complete, sign and return the SERFF Web Hosting Services Application Form.
- 3) Execute a SERFF Remote Hosting Agreement with EDS.

Please call Toll Free 866-EDS-HOST (337-4678) for assistance.

Performance
