

# INNOVATION IN THE WORLD OF INSURANCE

## EDS SERFF DATA HOSTING

/// eds.com

System for Electronic Rate and Form Filing (SERFF), enables insurance companies to streamline their rate and form filing process. By filing electronically, insurers save administrative costs and shorten the response time to gain approvals.

As owner of the SERFF application, The National Association of Insurance Commissioners (NAIC) chose EDS as its data hosting provider for companies looking for long-term storage and security of rate and form filings.

### EDS SERFF DATA HOSTING SERVICES

EDS' SERFF Data Hosting is an automatic, cost effective solution to the complex problem of storing rate and form filings in a secure environment.

With EDS, insurers do not have to worry about lost or corrupted filings. Filings submitted on the NAIC Server are considered property of the state's Department of Insurance. Therefore, these filings may be removed from the NAIC Server due to the state's retention policy. Whether electronic or paper, EDS' solution guarantees insurers instant access to their historical filings with no expiration period.

EDS Data Hosting also provides advanced search tools that allow insurers to define, filter and export data into customized reports.

As a leading technology provider, EDS knows about ensuring data security. With highly secure and reliable facilities worldwide, clients can rest assure they are getting 24/7/365 operations, traffic and data flow monitoring.

What's more? EDS guarantees:

- Daily backups and stress testing to assure uptime.
- High speed internet connections to guarantee access.
- Pricing on a per filing basis.
- Multiple layers of physical and electronic security.
- SAS-70 Audited and Secure Socket Layer (SSL encryption).

## HOW TO GET STARTED

In order to obtain access to the SERFF system and EDS SERFF Data Hosting Services companies must:

1. Obtain NAIC SERFF License Agreement (contact NAIC).
2. Select per filing pricing option or purchase a block of filings (contact NAIC).
3. EDS SERFF Data Hosting Application (contact EDS).
